

Safe **Balloon Practices**

We care **about your safety and the environment**

Supervise Children

Uninflated or burst balloons can be a choking hazard. Please supervise children under the age of 8.

Inflate Safely

To avoid injury always use a balloon pump and NEVER inhale Helium.

Latex Allergy Aware

Balloons made of natural rubber latex may cause a reaction in those with latex allergies.

Don't Let it Go

Don't release helium balloons outdoors as it can be harmful for our sea life - tie each balloon to an individual weight.

Pin It & Bin It

Always dispose of balloons responsibly, pop them and place them in a bin.
